## SUMMARY

I am a highly skilled and creative **Senior Architect** with 15+ years of proven experience in planning, designing and managing various types of projects at different scales. Passionate and inquisitive in every aspect of the architectural process, I am a strong team player with a track record of delivering high-quality work on time and within budget. My expertise spans comprehensive documentation, meticulous technical coordination, precise detailing, and effective stakeholder communication. I am proficient in all essential industry-standard software tools, enabling seamless project execution and collaboration.
